

I've Got Questions About Treatment.

You—or someone you love—may be considering treatment with SPRYCEL. Here are some of the questions you may want to ask your doctor about your treatment with SPRYCEL.

Asking questions can help you learn more about your treatment and what you can expect.

You may find it helpful to bring this checklist along to your doctor's appointment and write down the answers.

How and when will I know if SPRYCEL is working?

How long will I need to take SPRYCEL?

How often do I take SPRYCEL?

Should I take SPRYCEL with or without food?

Is it okay to take my other medicines when I take SPRYCEL?

What are the possible side effects of SPRYCEL?

Is there anything I can do to help manage possible side effects?

How often will I come in for follow-up visits?

What support programs are available for someone taking SPRYCEL® (dasatinib)?

Can someone in your office tell me what I need to know about SPRYCEL programs?

Got more questions? Make a note of them here before your appointment.
It's so easy to forget what you wanted to ask!
